Gerovės g. 35-9, Vilnius

JUSTYNA JANČIS

BEGINNER FRONT - END ENGINEER & CIVIL ENGINEERING STUDENT

ABOUT ME:

Construction engineer from Vilnius Tech who studies JavaScript pursuing for greater goals ! Speaking in Lithuanian, English, Russian and Polish.

After contributing to the design of four projects in Sweden and Lithuania, I turned to the IT field. Mainly for the lack of creativity and monotonous work in construction field served as the final point in deciding to change my profession.

Excited by the opportunity, I started to study Front – End for beginners with CodeAcademy and after the course I started to study on my own.

My journey in this field is just started !
So if You are **looking for** humble, highly motivated **entry level** employee and team reinforcement – **contact me** !
