Gerovės g. 35-9, Vilnius

JUSTYNA JANČIS

BEGINNER FRONT - END PROGRAMMER & CIVIL ENGINEERING STUDENT

ABOUT ME:

Construction engineer from Vilnius Tech who studying JavaScript pursuing for greater goals ! Speaking in Lithuanian, English, Russian and Polish.

Contributed to the design of four objects in Sweden and Lithuania, I turned to the IT field. Namely the lack of creativity and monotony work in construction field server as the final point in deciding to change profession.

Excited by the opportunity, I started to study Front – End for beginners with CodeAcademy and after the course I started to study on my own.

My journey in this field is just beginning !
So if You are **looking for** humble, highly motivated **entry level** programmer and team reinforcement – invite me to **practice** !
